

SAINT PETER'S UNITED CHURCH OF CHRIST

Guidelines For Indoor Worship During Covid-19

Steps Saint Peter's Has Taken	Steps You Must Take
 <p>We continue offering online worship. If that is best for you, watch our messages at facebook.com/stpuccwestlawn</p>	 <p>Stay home if you feel sick. If you develop symptoms after attending a service or event, contact the church office.</p>
 <p>The heating/air conditioning system is set to provide both ventilation and filtration during services.</p>	 <p>Wear a mask that covers your nose and mouth.</p>
 <p>Physically distanced seating is arranged in the sanctuary, and ushers direct family units to seats.</p>	 <p>If you wear a visor, please add a mask when you're indoors. You can pick up a disposable mask in our welcome center.</p>
 <p>We require the use of face coverings following Pennsylvania's order, and we supply disposable masks.</p>	 <p>Do not wear a mask with an exhalation valve.</p>
 <p>In addition to regular weekly cleaning, wipe-downs of high-touch restroom surfaces are done by volunteers after events and services.</p>	 <p>Kids should sit with their families. Activity sheets are provided. Weekly Sunday school continues by email and confirmation classes with online meetings.</p>
 <p>We have modified our worship service to reduce the length of exposure to aerosols and droplets.</p>	 <p>Please go outdoors to catch up with your church family members. Masks and social distancing are important outdoors, too.</p>
 <p>We have posted information on ways you can reduce disease transmission in our building and on our website.</p>	 <p>Because seating is limited, guests must contact the church office before attending a service.</p>
